Typing Meteors: player guide

Words fall towards your planet. Type a word to destroy its meteor; the letters you got right turn teal. Three misses end the game.

Controls

- Letters: type the word (no Enter needed)
- Backspace: clear what you typed
- Esc: pause

Scoring

- 10 points per letter, times a combo bonus (+10% per word in a row, up to +200%) and a level bonus
- Golden meteors give double points and slow time for 4 seconds
- Every 15 words a new wave starts and meteors fall faster

Levels and word packs

5 start levels (Cadet to Legend) and 4 word packs: Home row, Common words, Animals, Code. After a game you see your score, words, words per minute (5 characters = 1 word) and accuracy. Your best score is saved in the browser.

Classroom use

Open the HTML file from a USB stick or a shared folder; it needs no internet, account or install.
